REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the limitation of a process for machining a wafer between tow plates comprising reducing the pressure on the workpiece, then increasing the pressure at least once during machining, and reducing a supply of an auxiliary substance as the pressure is increased, was not found in the prior art.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Grabbe et al, Ottman et al. and Minami were cited to show other examples of wafer polishers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
